Other.....

OTHER PAST MEDICAL HX:

CURRENT MEDICATIONS:

EXCLUSION CRITERIA:

Patients younger than 25 years old (unless high risk), patients with end stage diseases (e.g. end stage COPD, terminal cancer) in whom a diagnosis of angina will not affect future management

The RAPID ACCESS CHEST PAIN CLINIC aims to see patients who have recent onset angina (or exacerbation of known coronary disease) rapidly as these conditions are associated with significant mortality. The RACPC is NOT for patients with rest pain who should be referred to ED

OTHER INVESTIGATIONS FINDINGS:

ECG, CXR, Bloods -- please enclose with referral

Referrals can be submitted online, emailed or faxed
Your patient will be seen within 2 weeks of referral
